Professional Summary

Results-driven **Full-Stack Web Developer** with **3+ years** of experience building scalable, responsive web applications using **React.js, Laravel, PHP, JavaScript, and WordPress**. Currently a Full-Stack Engineer at **Zapply**, contributing to a Chrome extension that automates job applications. Holds a **BS in Software Engineering** and is pursuing an **MS in Computer Science from GIKI** (one of Pakistan's top-ranked universities) with **High Distinction (Dean's Honor List)**. Combines strong frontend/backend engineering with hands-on experience in **Deep Learning, Generative AI, and LLM fine-tuning**. Adept at translating business requirements into clean, performant, and maintainable code, with a proven track record of delivering 10+ freelance projects across diverse industries.

Experience

Full-Stack Engineer, Zapply Remote Dec 2025 – Present

- Building a **Chrome extension for automated job application autofill**, helping users apply to jobs faster across multiple platforms.
- Developing and integrating **RESTful APIs** between the browser extension, frontend dashboard, and backend services.
- Implementing responsive UI components, secure authentication flows, and performance optimizations across the full stack.
- Collaborating with cross-functional teams (design, product, QA) to design, develop, test, and deploy scalable features in an agile environment.
- Working with modern web technologies including **React.js, Node.js, JavaScript (ES6+), Chrome Extension APIs (Manifest V3)**, and REST integrations.

Freelance Full-Stack Developer, Self-Employed (Fiverr, Direct Clients) Remote Mar 2022 – Present

- Delivered **10+ end-to-end web projects** for international clients including portfolios, e-commerce stores, and business management systems.
- Built custom **WordPress** sites and **Laravel/React** applications tailored to client specifications, with responsive design and SEO optimization.
- Specialized in **UML-based software architecture and design documentation** as a top-rated service on Fiverr.
- Managed full project lifecycle: requirements gathering, design, development, deployment, and post-launch maintenance, sustaining long-term client relationships.

Web Developer Intern, Quadtrum On-site Nov 2023 – Feb 2024

- Completed a 3-month backend-focused internship developing dynamic web applications with the **Laravel** framework.
- Contributed to feature implementation, bug resolution, and code reviews within an **agile team workflow**.
- Strengthened proficiency in **API integration, MVC architecture, MySQL database design**, and version control with Git.

Education

MS in Computer Science GPA: 3.6 / 4.0 Sept 2024 – May 2026
Ghulam Ishaq Khan Institute of Engineering Sciences & Technology (GIKI)

- High Distinction — Dean's Honor List (DHL)** for outstanding academic performance.
- Relevant Coursework:** Advanced Algorithms & Computational Techniques, Deep Learning, Generative AI & Large Language Models (LLMs), Advanced Operating Systems, Computer Security & IoT.

BS in Software Engineering GPA: 3.54 / 4.0 Feb 2019 – Mar 2023
Hazara University

- Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Software Design & Architecture, Database Systems, Web Engineering, Mobile App Development, Operating Systems, Computer Networks, Software Requirements Engineering, Information Security.

Key Projects

Dynamic Business Management System	<i>React.js · Laravel · MySQL</i>
- Engineered a full-stack web application for managing clients, invoices, and financial reports with role-based access control. - Implemented complete CRUD operations, JWT authentication, and an admin dashboard with interactive data visualization. Stack: React.js, Laravel, MySQL, Bootstrap, RESTful APIs.	
E-Commerce Platform — Online Shopping Store	<i>Laravel · MySQL · Payment Gateway</i>
- Designed and built a full-featured eCommerce platform with shopping cart, order management, and integrated payment gateway. - Developed a secure admin panel for product, inventory, and order management with responsive customer-facing UI. Stack: Laravel, PHP, JavaScript, HTML5, CSS3, MySQL.	
Personal Portfolio Website — Sauram Raj Thuladar	<i>WordPress · Elementor · PHP</i>
- Delivered a professional portfolio site showcasing projects, experience, and contact details with custom branding. - Implemented responsive layouts, smooth animations, and on-page SEO optimization for enhanced search visibility. Stack: WordPress, Elementor, PHP, HTML, CSS, JavaScript.	
Developer Portfolio — Personal Web Profile	<i>React.js · Bootstrap · GitHub Pages</i>
- Built a modern React-based personal portfolio showcasing projects, certifications, and technical skills. - Integrated dynamic project sections, contact forms, and deployment via GitHub Pages with CI workflow. Stack: React.js, HTML, CSS, Bootstrap, GitHub Pages.	
Freelance Client Websites — Custom Business Solutions	<i>WordPress · Laravel · PHP</i>
- Delivered multiple client websites featuring booking systems, product catalogs, and service-based landing pages. - Focused on clean, responsive design and performance optimization for fast load times (Core Web Vitals). Stack: WordPress, PHP, Laravel, Bootstrap, JavaScript.	

Technical Skills

Languages: JavaScript (ES6+), PHP, Java, HTML5, CSS3, SQL, Python (basics for ML)
Frameworks & Libraries: React.js, Laravel, Node.js, Bootstrap, jQuery, Tailwind CSS
AI / ML: Deep Learning, Generative AI, LLM Fine-Tuning, TensorFlow / PyTorch (coursework)
Databases: MySQL, MongoDB, Firebase Realtime Database
Tools & Platforms: Git, GitHub, WordPress, Elementor, XAMPP, Firebase, VS Code, Postman, Chrome Extension APIs (Manifest V3)
Software Engineering: UML Design, Software Architecture, REST API Design, Responsive Web Design, SEO Optimization, JWT Authentication, Agile / Scrum

Certifications & Honors

High Distinction — Dean's Honor List (DHL), GIKI	2026
<i>Awarded for outstanding academic performance in MS Computer Science.</i>	
Certificate of Contribution — 22nd IEEE HONET 2026, GIKI	2026
<i>Recognized for contribution to the 22nd IEEE International Conference on High-Capacity Optical Networks and Enabling/Emerging Technologies.</i>	
Front-End Development — Meta (Coursera)	2025
Programming with JavaScript — Meta (Coursera)	2025
Version Control — Meta (Coursera)	2025
React Front-End Development	2024
PHP & Laravel Development	2023
WordPress Development for Beginners	2023
